

WE WILL MISS YOU BRUNO

On October 7th, 2010 Bruno was laid to rest. Unfortunately he was diagnosed with end-stage Kidney failure.

The beginning of September we gave him medicine, changed his diet, even tried homeopathic measures, but This terrible progressive disease won in the end.

He always kept his wonderful playful personality, always wanting to run but his insides were hurting.

He loved the Dog Park, he was one of the first Players . He loved to lead a long run, bark and play.

Part of our lives are gone, but we will always Remember all the places he went with us.

John & Lisa Van Aken
